

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THE general interest taken in Educational matters at the present time has led to the compilation of the following work; which it is hoped may prove useful to those who are battling with man's terribly aggressive foe, *Ignorance*, pointing out, as the Catalogue does, the materials obtainable for carrying on the warfare.

Every exertion has been made to render the Work as perfect as possible, although no claim is made for absolute completeness. It is simply a Classified List of eight or nine thousand Educational Books now in use in this country, issued by nearly one hundred and fifty publishers.

It seems unnecessary to explain the plan of the Catalogue further than to say, that every subject will be found under the first alphabet in black type, and the inquirer is there referred to the proper heading under which he will find the titles. The sub-references, in plain capitals, refer to the sub-divisions of the heading under which the person is at the time looking. It may, perhaps, take a little turning over of leaves to get at the titles, but the inquirer is thus spared the trouble of deliberating under what heading to look for a book, perhaps to be more than once disappointed.

The Compiler, by the plan he has adopted, has endeavoured to obviate the difficulty previously alluded to—a difficulty that he has frequently experienced in consulting classified catalogues.

APPENDIX—Special Lists of Educational Publishing Houses.

---

 The letters S.K. annexed to the title of a book indicate that a copy of that work can be seen at the Library of the South Kensington Museum. This valuable and unique Library of Educational Works is constantly being increased, and its extreme importance to both Teachers and Learners is such, that a few years must necessarily add largely to its proportions. The books thus marked can be examined at the Museum, subject to the rules of the Department.

# A LIST OF PUBLISHERS,

WITH THEIR ADDRESSES.

 As the Names of the Publishers have been abbreviated in the body of the Catalogue in some instances, it is thought that this list will be found useful. The only abbreviation that has been used that needs any explanation is that of 'C. K. S.', which represents 'The Society for Promoting Christian Knowledge.' All other abbreviations will be at once understood by referring to this list.

 The Compiler of this Catalogue addressed a letter to the Head Masters of the more important Schools in England, inviting from them a list of the Educational Works in use at their respective Establishments. The object was to show what books were practically employed by the leading Educators of the land. The response to this application has been somewhat of a disappointment. Some gentlemen have declined to furnish the information, on the ground that the books in use do not represent their own selection; others, for divers reasons not necessary to mention. The lists that follow of the Books in use at CHRIST'S HOSPITAL, ETON COLLEGE, MARLBOROUGH COLLEGE, MERCHANT TAYLORS' SCHOOL, ROSSALL SCHOOL (Fleetwood), and WELLINGTON COLLEGE are all that have been received; and they are given in the same order as they were supplied, without any attempt at classification, with the expression of the Compiler's thanks to the gentlemen who have provided the information. It should be mentioned that these books do not in every instance represent the preference of the Head Master, but that their use is often the result of long custom. Suggestions as to improvement and amplification of this portion of the Catalogue, in future editions, are invited.

## A LIST OF BOOKS

FOR THE STUDY OF HEBREW AND THE MODERN LANGUAGES,

PUBLISHED BY

**ASHER & CO. Importers of Foreign Books,**

13 BEDFORD STREET, COVENT GARDEN, LONDON, W.C.

**GESENIUS'S STUDENT'S HEBREW GRAMMAR**, from the Twentieth German Edition, as revised by E. ROEDIGER, D.D. Professor of Oriental Languages at the University of Berlin. Translated by B. DAVIES, LL.D. With special Additions and Improvements by Dr. ROEDIGER; and with Reading Book and Exercises by the Translator. 8vo. cloth, 7s. 6d.

'Lucid order, admirable arrangement, clear judgment, and well-digested facts give this grammar an abiding value.'—*ATHENÆUM*.

'Its simple and intelligible arrangement of materials, its generally sound conclusions, and its highly convenient form, will always make it the favourite text book.'—*BRITISH QUARTERLY REVIEW*.

'Dr. Roediger's reputation renders any recommendation superfluous, but we may notice that the reading-book and exercises appended by the translator are of a kind well suited to assist the student in mastering the inflections and constructions of the language.'—*EDUCATIONAL TIMES*.

'We have compared this grammar with some dozen others, and are inclined to place it first of all for convenience, clearness of arrangement, and general usefulness.'—*THE SWORD AND TROWEL*.

'No student can wish for better aid in mastering the initiatory intricacies of the sacred tongue. The paradigms of verbs are well arranged.'—*ENGLISH CHURCHMAN*.

**THE STUDENT'S HEBREW LEXICON**, founded on Dr.

JUL. FURST'S smaller Hebrew and Chaldee Lexicon to the Old Testament. With Improvements from Gesenius, Røediger, and others. Edited by B. DAVIES, LL.D., Translator of Røediger's Gesenius. 8vo. cloth, 10s. 6d.

**EWALD'S (Prof. H.) INTRODUCTORY HEBREW GRAMMAR** for the Use of Beginners. Translated with Special Improvements from the German Edition, with the Author's concurrence, by the Rev. J. FRED. SMITH. 8vo. cloth, 6s.

'The original work is so well known that we need not here state more than that the translation is guaranteed by the original author, while the translator has added indices and a table of contents.'—*LITERARY CHURCHMAN*.

'Indispensable to those who do not read German. The style is clear and intelligible.'—*ACADEMY*.

**LENORMANT'S STUDENT'S MANUAL OF ORIENTAL**

**HISTORY**: a Manual of the Ancient History of the East to the Commencement of the Median Wars; comprising the History of the Israelites, Egyptians, Assyrians, Phœnicians and Carthaginians, Babylonians, Medians, Persians, and Arabians. By FRANÇOIS LENORMANT, Librarian at the Institute of France. Translated from the Third revised Edition by E. Chevallier, Member of the Royal Asiatic Society. 2 vols. post 8vo. cl. 12s.

'The best proof of the immense results accomplished in the various departments of philology is to be found in M. François Lenormant's admirable Handbook of Ancient History. Fifty years ago such a work could not have been published, and it is not too much to say that the mass of knowledge conveyed through the means of inscriptions, both cuneiform and hieroglyphic, has revolutionised the views one was apt to form of the great nations which flourished before the appearance of Christianity.'—*ATHENÆUM*.

'One does not often see so skilful a specimen of lucid condensation as this work exhibits. The results of prehistoric archæology, the results of modern linguistic science, those of modern inquiries into the origin of the human species, those of Egyptology, of Assyrian inscription, of modern historical investigations bearing in any way upon Eastern history, are summed up within the compass of two volumes.'—*GUARDIAN*.

'Altogether we may hail it as a useful book of reference for teachers, for senior pupils, and for men of education who desire to keep pace with the advance of European studies.'—*ALLEN'S INDIAN MAIL*.

'M. Lenormant's Manual may be confidently recommended as a very considerable advance on anything we have ever had before on the same subject.'—*TABLET*.

‘It is one of the most valuable series of books to the commercial world to which it has hitherto been our duty to call attention.’—BLACKBURN STANDARD.

‘The books are exceedingly cheap, well printed and got up, and are likely to become very popular amongst the classes of persons whose necessities they are designed to meet.’—MANCHESTER COURIER.

‘The model books issued by Messrs. Asher & Co. are the best works we have seen for supplying the desideratum of sententious guides to those languages, both as regards matter and style. The letters given are of most extensive application, and the glossaries, notes, tables, &c., by which they are supplemented, are of great utility for idiomatic technical renderings. These handbooks will, we venture to predict, meet with the greatest success.’—LIVERPOOL JOURNAL.

### MISS CORNER'S HISTORICAL LIBRARY. FOR SCHOOLS AND FAMILIES.

#### CORNER'S HISTORY OF ENGLAND.—NEW EDITION.

THE New Edition of the HISTORY of ENGLAND contains, in addition to the former Illustrations, a folded Plate (sh. im.), beautifully etched on Steel, representing the Costumes of the English Nobility, Clergy, Gentry, Army, Navy, Civil Officers, Artisans, Labourers, &c., from the CONQUEST to the Reign of QUEEN VICTORIA: also the Ships, Furniture, Household Utensils, Musical

Instruments, &c. of the several periods. The whole, including the Armorial Bearings of the successive dynasties, chronologically arranged.

This elaborately-drawn and carefully-executed Plate has been compiled from the most authentic sources, a great part being copied from Illuminated Manuscripts of the Middle Ages, many of which have not hitherto appeared in any modern publication.

MISS CORNER'S HISTORIES ARE WELL ADAPTED FOR SCHOOL AND FAMILY READING, BEING PLEASANTLY WRITTEN, and forming agreeable contrasts to those dry epitomes with which children are so often teased; the whole compiled from accepted English and Foreign authorities, and each History has Chronological Table, Index, Map, Steel Plates, and is strongly bound, viz. :—

## GROOMBRIDGE'S SCIENCE MANUALS.

### CHEMISTRY.

By F. S. BARFF, M.A. Illustrated with numerous Wood Engravings. Fcp. 8vo. cloth, 4s. An introduction to Scientific Chemistry, designed for the use of Schools and Candidates for University Matriculation Examination.

'This is the first volume of an educational series of elementary treatises about to be issued for students. The student who knows Mr. Barff's book in the way it is intended to be known, will have a solid ground-work of chemical knowledge on which he may safely rear the more speculative branches of the science. For the purposes of clear instruction, for preparing for the earlier examinations, and last, though not least, for cheapness and excellence, we heartily recommend Mr. Barff's work to the notice of students.'—*LANCET*.

'It is impossible to read this book without a conviction of its marked superiority. The conciseness and lucidity with which each point is handled give to it the freshness of original study; and the reader is disposed to regret that in his younger days he was possessed of no such handbook on this difficult science with which to quicken his awakening aspirations. Mr. Barff's book is a complete success in the art of driving away the weariness of first attempts.'—*EXAMINER AND LONDON REVIEW*.

### HEAT.

By TEMPLE AUGUSTUS ORME. Illustrated with numerous Wood Engravings. Fcp. 8vo. cloth, 3s. 6d. An introduction to the science of Heat, designed for the use of Schools, and Candidates for University Matriculation Examinations.

'This book is full of excellent examples of the various laws of heat, and the student who has worked through these questions cannot fail to have acquired a good practical knowledge of the subject.'

'Mr. Orme has produced an educational work which is well fitted for giving all who study it with understanding a very thorough insight into the laws and phenomena of heat.'—*BRITISH MEDICAL JOURNAL*.

### MECHANICS.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcp. 8vo. cloth, 4s. An elementary course of Theoretical and Applied Mechanics, designed for the use of Schools, Colleges, and Candidates for University and other Examinations.

'Mr. Wormell states in clear and concise language the principles of elementary statics and dynamics. We have no doubt that this excellent little work will be a great success.'—*NATURE*.

'Mr. Wormell's book cannot be too warmly praised as an introduction to the study of theoretical and applied mechanics.'—*CHEMIST AND DRUGGIST*.

### HYDROSTATICS AND SOUND.

By RICHARD WORMELL, M.A., B.Sc. Illustrated with numerous Wood Engravings. Fcp. 8vo. cloth, 3s. An elementary course of Hydrostatics and Sound, designed for the use of Schools, Colleges, and Candidates for University and other Examinations.

'Forming one of the admirable series of "Groombridge's Science Manuals." "Hydrostatics and Sound" is in every respect worthy of the position assigned to it. The various principles enunciated are illustrated most clearly by experiments, which, being fully and carefully described in a popular style, may readily be performed by the uninitiated.'—*CITY PRESS*.

'The whole subject is dealt with in a very simple and intelligible way, which will doubtless recommend it to students.'—*EDUCATIONAL TIMES*.

*The following Volumes are in preparation:—*

### ZOOLOGY AND COMPARATIVE ANATOMY.

By W. H. ALLCHIN, University College, London. Illustrated with numerous Wood Engravings. Fcp. 8vo. cloth.

## BOOKS FOR STUDENTS.

POCKET DICTIONARIES FOR THE MILLION.

**LOW'S POCKET GERMAN DICTIONARY**, published in connexion with Baron Tauchnitz, of Leipsic, and is incomparably the cheapest and best German Dictionary in the country, and must find a ready sale at the price wherever seen. In Two Parts. Part I. German and English; Part II. English and German. 430 pp. 16mo. Complete for One Shilling.

Also uniform, price 1s. 6d. each,

**TAUCHNITZ'S ITALIAN DICTIONARY.** | **TAUCHNITZ'S FRENCH DICTIONARY.**

**DR. ANDREWS' LATIN-ENGLISH LEXICON.** The superiority of this justly-famed Lexicon is retained over all others by the fullness of its Quotations, the including in the Vocabulary Proper Names, the distinguishing whether the Derivative is classical or otherwise, the exactness of the References to the Original Authors, and in the Price. Tenth Edition, royal 8vo. pp. 1,670, cloth extra, price 18s.

'The best Latin Dictionary, whether for the scholar or advanced student.'—*SPECTATOR*.

'Every page bears the impress of industry and care.'—*ATHENÆUM*.

**DR. WORCESTER'S ENLARGED DICTIONARY OF THE ENGLISH LANGUAGE.** Adapted for Library or Household Reference. 40,000 more words than Todd's Johnson, with numerous Illustrations. Complete in 1 vol. 4to. well bound, price 31s. 6d.

'The best existing English Lexicon.'—*ATHENÆUM*.

'We have never failed to get a right answer from it.'—*EXAMINER*.

'The volumes before us show a vast amount of diligence; but with Webster it is diligence in combination with fancifulness—with Worcester in combination with good sense and judgment. Worcester's is the toterer and safer book, and may be pronounced the best existing English Lexicon.'—*ATHENÆUM*.

**A COMPARATIVE GRAMMAR OF THE ANGLO-SAXON LANGUAGE.** By FRANCIS A. MARCH. 8vo. 12s.

'The history of the language, the laws of its phonology, inflections, derivation, syntax, and prosody, are handled in a way that shows a thorough command not only of the language itself, but also of its relations with the cognate tongues. In this recognition of the comparative or scientific as opposed to the purely empirical method of studying Anglo-Saxon which has hitherto prevailed in this country, lies the special value of the work for English readers. It is the first in our language in which the latest results of comparative philology as applied to Anglo-Saxon have been made generally accessible. . . . A book which can be unhesitatingly recommended to all English readers who wish to acquire a sound and intelligent knowledge of Anglo-Saxon.'—*ACADEMY*.

'We hope that Mr. March's Grammar will find all the reader welcome in this country as our standard of Anglo-Saxon learning is greatly in need of being raised, and the work is one of rare research and rare accuracy, which takes high rank among original Grammars in the English language.'—*ATHENÆUM*.

**PLUTARCH'S MORALS.** A Library Edition, uniform with Professor Clough's Edition of 'Plutarch's Lives.' Edited by Professor GOODWIN, of Harvard College, Mass. With an Introductory Essay by R. W. EMERSON. 5 vols. 8vo. cloth, £3 3s.

\* \* This work is published simultaneously in London and Boston, and offers a fine standard edition of a Work that has long been out of the market; no English edition having been printed since 1718, and that a very indifferent one.

'That Plutarch is an especial favourite on the other side of the Atlantic we gather from the genial panegyric which Mr. Emerson pronounces upon him in his "Society and Solitude":—

"Plutarch cannot be spared from the smallest library; first, because he is so readable, which is much; then, that he is medicinal and invigorating. Plutarch charms by the facility of his associations; so that it signifies little where you open his book, you find yourself at the Olympian tables. His memory is like the Isthmian games, where all that was excellent in Greece was assembled, and you are stimulated and recruited by lyric verses, by philosophic sentiments, by the forms and behaviour of heroes, by the worship of the gods, and by the passing of fillets, parsley and laurel wreaths, chariots, armour, sacred cups, and utensils of sacrifice."

The same enthusiastic regard which inspires this passage animates every line of Mr. Emerson's agreeable Preface to the work before us. It will be strange if it does not excite in many readers a desire to know more of a writer who could provoke in Mr. Emerson so warm a feeling of gratitude and admiration.'—*ATHENÆUM*.

**PLUTARCH'S LIVES.** An entirely New Library Edition, carefully revised. With some Original Translations by the Editor, the late A. H. CLOUGH, Esq., sometime Fellow of Oriel College, and Professor of English Language and Literature at University College. 5 vols. 8vo. cloth, £2 10s.

"Plutarch's Lives" will yet be read by thousands, and in the version of Mr. Clough.'—*QUARTERLY REVIEW*.

'Mr. Clough's work is worthy of all praise, and we hope that it will tend to revive the study of Plutarch.'—*TIMES*.

**THE ORDER OF WORDS IN ATTIC GREEK PROSE:** an Essay. By CHARLES SHORT, M.A. LL.D. Professor of Latin in Columbia College, New York. 8vo. 10s.

**ESSAYS ON ENGLISH WRITERS**, for the Self-Improvement of Students in English Literature. By the Author of 'The Gentle Life.' Fcp. 8vo. price 6s.

'To all (both men and women) who have neglected to read and study their native literature we would certainly suggest the volume before us as a fitting introduction.'—EXAMINER.

**WORDS OF WELLINGTON**: Maxims and Opinions, Sentences and Reflections, of the Great Duke, gathered from his Despatches, Letters, and Speeches. Compiled by EDITH WALFORD. Bayard Edition. Price 2s. 6d.

'One of the best books that could be put into the hands of a youth to influence him for good.'—NOTES AND QUERIES.

**THE DICTIONARY OF BIOGRAPHICAL REFERENCE.**

**LATIN PROVERBS AND QUOTATIONS**; with Translations and Parallel Passages, and a Copious English Index. By ALFRED HENDERSON. Fcp. 4to. 530 pp. price reduced to ros. 6d.

'The book is, we should imagine, the best of the kind that has yet been issued from the press.'—EXAMINER.

'We trust that many will be induced by the taste of good things that we have given them to go to the book itself, which is well worth possessing.'—SPECTATOR.

'A very handsome volume in its typographical externals, and a very useful companion to those who, when a quotation is aptly made, like to trace it to its source, to dwell on the minutiae of its application, and to find it illustrated with choice parallel passages from English and Latin authors.'—TIMES.

'A book well worth adding to one's library.'—SATURDAY REVIEW.

# THE DEAN'S ENGLISH:

A CRITICISM ON THE DEAN OF CANTERBURY'S ESSAYS  
ON THE QUEEN'S ENGLISH.

By G. WASHINGTON MOON,

MEMBER OF THE COUNCIL OF THE ROYAL SOCIETY OF LITERATURE.

---

'Demonstrating that while the Dean undertook to instruct others, he himself was but a castaway in matters of grammar.'—THE EDINBURGH REVIEW.

'Coming out for wool, in fact, the Dean went back shorn; rushing forth to teach, he went home taught.'—THE RECORD.

'It merits the attention of all students of our tongue.'

THE ENGLISH JOURNAL OF EDUCATION.

'It is calculated to render considerable service to loose thinkers, speakers, and writers.'

THE LONDON REVIEW.

'Even practised writers may here learn a lesson or two in the art of expressing themselves in their mother tongue clearly and correctly.'—THE DUBLIN REVIEW.

# BAD ENGLISH EXPOSED:

A SERIES OF CRITICISMS ON THE ERRORS OF  
LINDLEY MURRAY AND OTHERS.

(*The Companion Volume to 'The Dean's English.'*)

---

'This work is well worthy of the careful study of all who aspire to write English elegantly and accurately.'—THE LONDON QUARTERLY REVIEW.

'There is something very inviting in the work of a man who, having fairly unhorsed the Dean of Canterbury in his own chosen lists, has now the audacity to attack the great arbiter of such contests, Lindley Murray himself. We confess our obligation to Mr. Moon, not only for an instructive, but for an entertaining book; and we believe that there are few persons who do not often fall into errors which he condemns, or who cannot learn from him, in a very pleasant way, to write and speak English more elegantly.'

THE CHURCH RECORD (New York).

'We welcome as a benefactor every man who sets himself conscientiously to prune out of our language those unsightly excrescences of style, violations of syntax, and inaccuracies of expression which disfigure so much of the literature of the day. This is the task which Mr. Washington Moon has imposed upon himself, and we wish him well accordingly. It would be unjust to him not to acknowledge that his two little books are a useful contribution to the art of writing the English language with accuracy.'—THE TIMES.

*The value and importance of this Dictionary will be best perceived when it is stated that it contains **One Hundred Thousand Names**, a number which exceeds by many thousands those contained in the most voluminous existing works upon the subject, and upwards of a **Quarter of a Million of References**. The chief letters run as follows:—in *B* 12,600 names, *C* 9,397, *G* 5,640, *L* 5,481, *M* 6,816, *S* 7,800.*

*This Work also contains as an Addendum a **Classed Index** of the principal Works on BIOGRAPHY, published in Europe and America to the present day, arranged under three divisions, viz.:—**GÉNÉRAL**, or those which contain the accounts of individuals of all nations; **NATIONAL**, or those which relate to the celebrities of particular countries; and **CLASS**, which treat only of the members of respective bodies or professions, &c.*

Of works on Biography the number is legion: nevertheless it appeared to the compiler of the present Work that room still existed for a **COMPENDIUM**, in which, by a judicious system of compression, a **Student's Dictionary** might be formed, which would register what, after all, is of the first importance to students—viz., *the more prominent dates and facts*—and at the same time afford the knowledge of works of a more recondite nature, in which fuller information might be found, if needed.

An approximation to the system adopted has been attempted by others, but in no case has it been carried out to the extent of the present Work; neither has the system of reference—the principal feature of this design—ever been essayed, if thought of.

The want which the present Work is intended to supply is one which must have been experienced by every earnest reader or writer. The value of the data upon which the generalisations of both must rest generally depends upon the readiness with which they can be verified, and no facts are more frequently in requisition for this purpose than those connected with the personal history of individuals; and when these are not of such note as to have taken their place in general history, it will be evident to all that much valuable time is frequently wasted in the attempt to identify them.

In these pages, in addition to the matter usually given in Biographical Dictionaries, will be found the names of the **Bishops, Chancellors, Judges, and other ecclesiastical and legal functionaries of the United Kingdom**, the **Lords Lieutenants of Ireland**, *classical celebrities, royal and noble personages of all nations*, and the greatest number of **distinguished Americans** ever collected in one work.

'The volume contains a hundred thousand names, and, of course, the information which is given respecting each name has to be condensed into the smallest compass. In most cases it occupies a single line, never more than a couple of lines. The information consists of the shortest possible statement of whom the person was, and the dates of his birth and, if he is dead, of his death; but some forty books of reference, where further details will be found, are pointed out by letters. An exceedingly valuable part of the book is the 'Classed Index of Works on Biography,' which includes works in almost all languages and of almost all countries. The work is a most remarkable example of patient and industrious compilation and of ingenious arrangement.'—*Daily News*.

'Here we have in one large octavo volume of 1,000 pages, at a cost of about thirty shillings, four times as many names as are to be found in forty-six volumes octavo! It is clear this must be the result of a system of compression not easily surpassed. . . . The list of names is most comprehensive, including Adam and Eve, and many of their still living descendants. The labour undergone in its compilation must have been enormous, and must have extended over many years. The printing, paper, and general style of the book are admirable. The value of the work is increased by its preface and appendix; the whole forming a most valuable book of reference for any and every student.'—*Birmingham Morning News*.

From the *Times*, Dec. 16, 1870.

'The Bayard Series, published by Messrs. Low, has swelled into fifteen pocket volumes, prettily bound, and, what is more, well selected and well edited. Such a series as this is of inestimable advantage to the general reader. It costs but little and takes up little room. For a few shillings it offers him fifteen books, and brings within his reach treasures that have been lying scattered through ponderous tomes, treasures he must otherwise have searched for in libraries, and which are not to be found in every library. Literary enterprise can push in no better direction than this. A large part of the best literature of the past is becoming buried and hidden out of sight by the worst literature of the present; it needs to be dug up, some of it needs to be melted down, to be freed from its dross, for, though there is much gold in old books, there is in many of them much alloy. Let him who would learn, not in folios which he can scarcely lift, but in little clear-printed booklets, of which six or seven make a handful, what was recorded of the brave Bayard by the "loyal servant" in his "very joyous, pleasant, and amusing history;" what was written of the good Saint Louis by the Sire de Joinville; what songs were sung by our Cavaliers and Puritans; what were Cowley's, Browne's, Hazlitt's, Napoleon's, Wellington's thoughts—let him who cares to have all this, and much else, under his hand, go and buy the Bayard Series.'
